

A Final Message From Chief Bradley

I want to take this time to once again express my sincere thank you to all our taxpayers, businesses, and other professional acquaintances for your support through my time as fire chief. Your support, kind words, and criticisms have helped me improve and made me the better person for it.

I also would like to thank our neighboring fire districts for their assistance and am proud of the level of cooperation that we have enjoyed for over 30 years. The seamless responses have benefited all our taxpayers. I also want to thank the Lee County Mosquito Control District for their assistance in our mission over the same period.

I want to thank the Board of Fire Commissioners for their confidence in me. There has been a diverse group of citizens serving on our board through the years. I can say that they always have given me their goals for providing services to the public and the tools to accomplish them.

Lastly but personally most importantly, I can't say enough about how proud I am of the personnel of your fire district and their dedication to you. They are ready to be there when you need us. Anything or everything that I needed or requested, they stepped forward. They truly made my job a pleasure.

As I enter into retirement let me once again say what a privilege it has been serving your District as fire chief for almost 24 years and our citizens for over 33 years. I hope you extend the same considerations to my successor, Paul DeArmond.

Humbly yours,

Gregory A. Bradley

Fire Chief
